

# SEALED AIR® Brand FasFil® Mini

The SEALED AIR® brand FasFil® Mini is a boxed fanfold paper dispenser that doubles as a convenient shipping container. This compact solution is ideal for low-volume shippers or small ship-from-store operations. Once the void-fill paper is depleted, the entire carton can be recycled in mixed paper collection streams. The box can be used alone or with the SEALED AIR® brand FasFil® M dispenser by removing the perforated box sections and placing the box of fanfold paper on the tabletop dispenser to start packing.
