Paper Cushioning System

Paper Cushioning Has Never Been Easier

## ADVANCED TECHNOLOGY RE-IMAGINES PAPER CUSHIONING

Paper cushioning doesn't have to be hard. The PadEZ® paper cushion system capitalizes on Sealed Air's renowned technical expertise and innovation, and introduces several patented breakthroughs that will change the way we view paper cushioning forever.

#### **EZ DISPENSING**

You control the flow of material with the PadEZ® system by choosing: push-button manual control, foot pedal operation, batching mode, or our Cut and Hold electronic dispensing system which automatically creates a pad and then pauses until you're ready for the next one.

#### **EZ PAPER HANDLING**

The PadEZ® system changes paper handling with several key innovations:

- **Roll Placement** The system can be loaded from the front or the rear.
- Auto Loading Our patented Auto-Loading technology uses sensors to jog the material into position, guaranteeing perfect alignment every time.
- Adjustable Pad Width Allows the operator to adjust the width to accommodate a variety of product demand for increased protection.

### **EZ CONTROL PANEL**

The PadEZ® system features the debut of our SmartStation™ control panel, and completely redesigned and intuitive interface that significantly reduces operator training.

#### **EZ POSITIONING**

The PadEZ® system can be easily integrated in an in-line or workcell operation.
